ANNUAL SPEECH DAY 2015 - 2016

On Friday, 9 December 2016, Sir Ellis Kadoorie Secondary School (West Kowloon) celebrated students' academic achievements and excellence in extra-curricular activities in the 2015-2016 school year on their annual Speech Day.

The ceremony began with the Principal's report on students' pleasing results in the HKDSE and GCE (AS) Level Examinations. Among the

outstanding achievers was Sit Wai Hang of 6A, who achieved the best HKDSE results.

She next moved on to report on the illustrious list of accolades in various extra-curricular domains. At the 65th

Hong Kong Schools Speech Festival, students won Championships in Boys Solo Verse Speaking and in Bible Reading. At the Hong Kong School Drama Festival and English Drama Fest, students won four awards for Outstanding Performers and two awards for Outstanding Scripts. In the Hong Kong School Sports Federation Inter-school Football Competition, the school's sports team was first runners-up, while in the Inter-school Rugby Sevens Competition as well as the Girls' and Boys' C Grade Rugby Don't Drop the Ball Tournament, the teams were crowned Champions. At the 52nd Schools Dance Festival Competition, the school's Jazz and Modern Dance team and Oriental Dance team garnered three prestigious awards.

Certificates were presented to the hardworking students by various honorable guests in attendance, including the Chief School Development Officer (YTM) Ms. HO Mo-ki and members of the School Management Committee, Managing Directors of Ruttonjee Estates Continuation Limited, and Chairperson of the Hong Kong Indian Women's Club.

The guest speaker, Mr. Peter O.K. Lam, Managing Director of Inno Tech Engineering Limited, delivered a fascinating and insightful speech to the audience. He spoke about the unlimited wisdom of kids, and passed on

a number of key points of advice, including embracing a never-give-up fighting spirit, being kind and following one's instincts in decision-making.

The Head Girl, Vinny, delivered an inspirational summary of students' learning opportunities at school, describing the valuable opportunities they have to develop their potential and appreciate cultural diversity.

The audience was entertained by a variety of student performances, including solo verse speaking in English, Putonghua and Cantonese, vibrant oriental and Bhangra dances, and a wonderful rendition by the school choir of one of Elvis Presley's hit songs, Can't Help Falling in Love with You. The morning ended with the rousing rendition of the school song, before guests, parents and prize winners proceeded to the mini hall for a delectable assortment of refreshments prepared by students.

First Staff Development Day 2016 - 2017

Our first Staff Development Day was held on 20 October 2016 (Thursday) on the school campus. We had planned to go by coach for half a day to "Easy Organic Farming Limited". Unfortunately the weather gods didn't agree with us and the outing was canceled. Our team's decision was fast and furious and the venue was changed to our school campus.

The entire team of Easy Organic Farming Limited came over to our school along with all the leaflets and a few plants for briefing and presentation. We were also given free Herbal Tea as a welcome drink.

Moreover, we were also given a demonstration of acupuncture points for relaxation along with a talk. The talk mainly focused on the role of Herbs in stress management. On the whole, it was quite an inspiring and informative morning for most of us.

The second half of the Staff Development Day started at 2:30 pm. There was an educational and in-depth talk titled "Anxiety Disorder in Children and Adolescents." It was conducted by the Hospital Authority of Hong Kong and all of us were quite engrossed and eager to know about this topic. We all learnt a lot from this presentation.

Overall, the entire day was tiring but enjoyable as everyone mingled and took part in discussions freely.

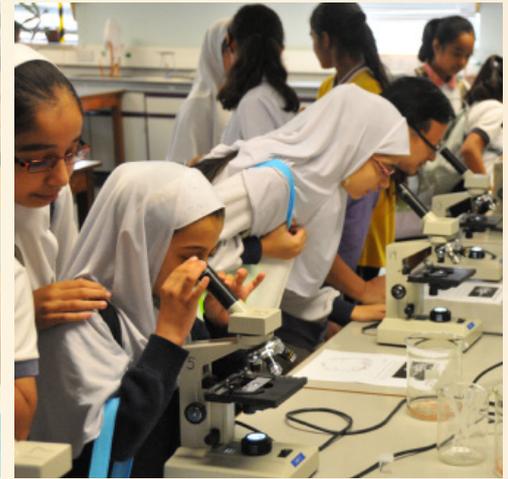

P.6 Information Day

– A Time to Understand, Enjoy and Learn

18 November 2016 was certainly a date to cherish. It was the first ever P.6 Information Day our school had specially prepared for our dear visitors from the primary schools. Our teachers, students and the primary students all shared the fun and joy of performances, games and competitions. It was a precious time in which our visitors from the primary schools learned more about the unique character of our school.

In fact, we are the only government school where students enjoy their learning in real international and cross-cultural atmosphere. Here students live and learn in a natural English speaking environment and relish the colourful differences of cultures from various nationalities. One should take note of the fact that, with choices like Hindi, Urdu, Putonghua, French and Spanish, our school has been offering a rich language learning environment that few secondary schools in Hong Kong can match.

It was immensely amusing to listen to our visitors from primary schools such as Li Cheng Uk Government Primary School, Yaumatei Kaifong Association School, Po On Commercial Association Wan Ho Kan Primary School and the others compete in the story telling competition in Hindi and Urdu. Just imagine how

a famous Aesop fable is told in these musical languages. It is definitely the only competition of its kind in Hong Kong, and the responses from our contestants were extremely positive. In addition to the story telling in Hindi and Urdu, a special English Prose Reading Section was included to round out the language aspect of this competition. The variety of fluent English readings by the enthusiastic and talented students from the Primary Schools was both impressive and enthralling and we look forward to having more participants in this section of the Information Day.

Apart from various competitions, our young visitors were invited to join all the fun at the game booths on different floors. They could do screen printing, balloon twisting, origami, Chinese calligraphy and riddles etc. It was easy. You could visit our language booths and follow our student instructors and asked for the waffles that you wanted in French and Spanish.

Furthermore, the Science Department took the occasion to demonstrate how a steam boat was made with a candle. There were interesting steam boat and model car races as well in the labs. If that was not enough to satisfy your curiosity in science, there was a soap making workshop in the chemistry lab, and our primary school visitors were all so eager to make soap with our help.

The P.6 Information Day is a memorable day of learning and participation for all of us in SEKSS. Learning should be a positive, joyful and enjoyable experience. We do hope that our young visitors can come to share our success and joy in the coming years in SEKSS.

小六學習資訊日 推廣中國傳統文化

為加深小六非華語學生對中國文化的認識，本校非華語學生中國語文科、中文學會及美術學會於二零一六年十一月十八日（小六學習資訊日）為到訪本校的小六學生舉辦了一連串的語文活動，包括：中文硬筆書法比賽、拼詞卡遊戲、中國傳統剪紙、中文圖書展覽等。到訪的小學學生既可參與語文遊戲，又可憑遊戲印花換領小食及紀念品，活動結束後，他們都盡興而返。

Class Party and Talent Show 2016-2017

We held our Class Party and Talent show on 21 December 2016 and unlike previous years, the talent show was held in the morning and proved to be a huge success with a variety of performances and acts to cater for everyone's tastes.

Competition among the participants was exceptionally intense with all of the talented performers bringing their "A-game" to the hall. The judges (Mr. Ricky Cheung, Ms. Shirley Chan, Ms. Yannie Mak and Ms. Chan Ho Ting) had their work cut out for them as they had to come up with clear cut winners in both singing and dance categories. Somehow they were able to pick winners in the two sections.

A group of predominantly 6A students with lead singer, Mel (6A), started off the festivities with their versions of the classic song 'Eye of the Tiger' and a Christmas carol. Their performance proved to be the most popular of the morning as they walked away with the 1st prize in singing. There was a tie for 2nd place with Lee Debing Delic (5B) on piano playing a self-written tune called 'With Wild Abandon' and Fermi (6B) and Tom (6B) singing 'I'm Yours' sharing the honours.

In the dance category, competition was just as stiff, and eventually the Indian Punjabi Dance Team consisting of young performers walked away with the 1st prize. 2nd place went to Anne-Marie (6A) and Hima (6A) for their lively African Dance number.

Once again our students outdid themselves and entertained their peers with wonderful and varied performances and we look forward to more from them in the coming years!

Parents' Night cum 25th Parents-Teachers' Association (PTA) Annual General Meeting

On 11 November 2016, Parents' Night cum 25th Parents-Teachers' Association (PTA) AGM was held in the school hall. Thereafter, voting was conducted to elect the Parent Representatives of the PTA Executive Committee (2016-2017). The Mistresses of Ceremony, Ms. Josephine Chung and Ms. Dunn Ling welcomed all the parents for attending the occasion. Students' dance performances kicked off the ceremony. Dedicated and enthusiastic parents participated in the event in a show of support to the school and be a part of their children's life.

At about 6:15 pm, our principal, Mrs. Yeung Kwong Mong-ha, welcomed the parents in the school hall for this important event and thanked them for their support. Then our PTA Chairman, Mr. Nachiappan Thirupathi, delivered his chairperson's report in which he emphasized the importance of students' and their parent-members' sense of belonging to the school. He also highlighted the achievements made during the past year, and acknowledged that the school's, teachers', parents' and students' trust in the PTA has risen tremendously which was evident from the nine well-attended Principal's Meetings with parents. He was highly appreciative of the support given by all the parents and the school in organizing successful interest classes, National Costume Day and PTA Fun Day BBQ. He concluded his speech by inviting more and more parents to come forward and take the lead in organizing and participating in the PTA school functions.

The minutes of the last, 24th, PTA meeting were confirmed without any amendments. Then the Statement of Accounts was presented at the AGM by Ms. Dunn Ling (Honorary Treasurer) detailing expenditure and revenue. There was a healthy balance of HK\$103,633.65. There being no discrepancies, the Statement of Accounts was confirmed.

The certificates were presented to the outgoing members of the PTA Executive Committee and the teacher members appointed to serve the PTA Executive Committee were introduced.

Since 4 executive members from the previous year would continue to serve the committee, there were vacancies for four executive members for the PTA Executive Committee. Six candidates were contesting for the PTA Executive Committee and two candidates contesting for SMC election. At 8:15 pm, the results were announced after the counting of votes. The four candidates elected for PTA Executive Committee were:

- * Ms. Stefania Gabriel
- * Mrs. Violeta Chan
- * Mrs. Rachel C. Galang
- * Ms. Karen Chow

Ms. Stefania Gabriel was also elected as the SMC Parent Representative for a two-year term (2016-2018). Mr. G. S. Batra was unanimously re-appointed as the PTA Honorary Auditor for the year 2016-2017. After the election, parents collected the term test report cards of their children from the respective class teachers.

It was truly an enjoyable night as it allowed parents to freely mingle with teachers to share their views. It was also a wonderful evening with snacks and drinks sponsored by the PTA.

Sports Day 2016 - 2017

It was yet another occasion for the students of Sir Ellis Kadoorie Secondary School (West Kowloon) to showcase their sporting prowess at the heats and final of the school's Annual Sports Day, which took place on 13 and 14 December 2016, respectively.

The flag raising ceremony kicked off the day followed by the school song, which infused the students with a zestful school spirit. As always, the day was abuzz with enthusiastic athletes vying for the grand title of Champion

in a plethora of track and field events amidst the throng and the din of their peers, who spurred them on to perform their best.

Topping the list of winners this year was Blue House, bagging the title of Overall Champion and Champion for boys, while Red House was the overall winner for girls. The Best Cheering Team award was bagged by Red House.

Among the Individual Champions were Butundu Ilunga Anne Marie of 6A (Girls A Grade), Marcos Kristhelle Vhay Marie P. of 3D (Girls B Grade) and Ying

Chun Yu of 1D (Girls C Grade). Among the boys, the Individual Championship went to Limbu Mohan of 3A (Boys A Grade), Rana Nasrulla of 2B (Boys B Grade) and Mbele Kinkani of 1C (Boys C Grade).

Rounding off the sporting fervor was a speech by the school Principal, Mrs. Yeung Kwong Mong-ha and the prize presentation by the guest-of-honour, Mr. Li Wing-leung, former Principal of the school. Commending the students on their impressive performance, Mrs. Yeung urged the students to demonstrate the same devotion and determination in their studies as was showcased on the sports ground. She also thanked the teachers, the

assisting staff and the student helpers for their assistance in ensuring a successful Sports Day.

Mr. Li presented the prizes and addressed the school. He reminded the students of the 3Cs – competence, character and care, which he had asked students to hold onto for a successful life during his time as the school Principal. He urged the students to take on the responsibility of making use of the opportunities that were presented to them and fully participate in their school life.

A Way to Fun Learning

Making a Rainbow Life Programme

To help non-Chinese speaking or newly arrived returnee students become more familiar with the local community and grasp a better understanding of the cultural differences, they were invited to join the 'Making a Rainbow Life Programme'. The ten-session tutorial, aimed at teaching basic Cantonese and enhancing their confidence in speaking Cantonese was organized from September to December after school.

17 students participated in the programme this year. Not only did they learn Cantonese through different topics like street food, feelings, festivals and Chinese taboos, but they also learned the development of Hong Kong and the beauty of Cheung Chau, one of the outlying islands of Hong Kong. They also spent a joyful day at Ocean Park at the end of the programme.

We hope that a mutual support network can be established among them for a smooth adaptation to their school life in Hong Kong.

Dress Casual Day 2016

The Guidance & Counselling Committee, Discipline Committee and Service Education Committee co-organized the Dress Casual Day 2016 for the Community Chest of Hong Kong on 30 September 2016. In order to promote this meaningful activity, hall assembly about the services supported by the Community Chest was held on 21 September 2016. On that day, the participants wore casual clothes or national costumes to school and enjoyed this worthwhile event very much. The amount of money raised on Dress Casual Day is shown below:

- Total donation: \$9137
- Highest Average Donation: 2C (\$34.7 per head)
- Second Highest Average Donation: 1D (\$23.8 per head)
- Third Highest Average Donation: 3E (\$21.7 per head)
- Highest Participation Rate: 2E (95.8%)

We would like to thank all the donors for their generosity and support of this worthwhile event. We are looking forward to the Dress Casual Day 2017.

中秋猜燈謎 師生樂融融

由本校中國語文科、中文學會與美術學會合辦的「中秋猜燈謎」活動於二零一六年九月十五日圓滿舉行。當天參與活動的老師和同學十分踴躍，參加者除觀賞由學生設計、富中國傳統特色的花燈外，更可藉著猜燈謎，訓練思考，認識中國文化，可謂寓學習於娛樂。活動中的燈謎來自中國的民間諺語、歇後語、成語故事、神話傳說等，十分有趣，大大鞏固同學的語文知識。

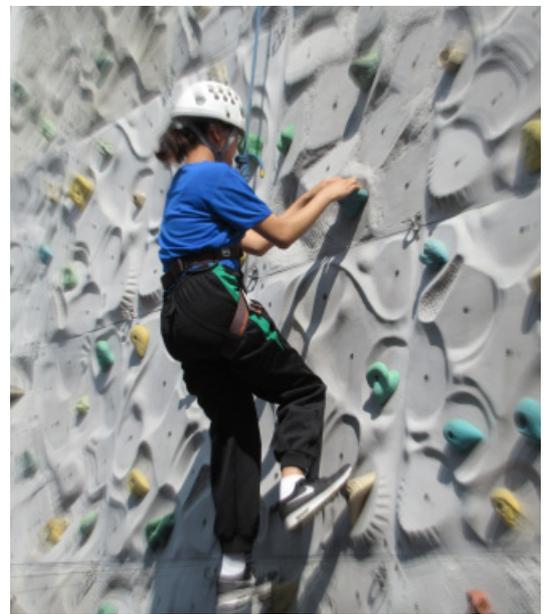

Enhanced Smart Teen Project 2016-2017

With the solid foundation we have laid for the Enhanced Smart Teen Project in our school in the previous years, we were given the chance to have our challenge camp held in the Customs and Excise Training School, providing our ESTP members an opportunity not only to have the discipline and leadership training, but also an all-rounded exposure towards the Customs and Excise Department.

10 girls and 8 boys were selected to join the team and get trained in the Customs and Excise Training School in Tuen Mun from 31 October to 4 November 2016. Not only did they take part in discipline training such as foot drills, they were also given opportunities to build up their team, taking leading roles in different occasions as well as challenging themselves for tasks they have never tried such as wall climbing. After the 5-day training, Phosawang Chanawat (2C) and Jessa Wong (3C) were awarded the best cadet and most improved cadet in the graduation ceremony on the final day respectively.

The graduation ceremony of the Challenge Camp did not mark the end of ESTP. In fact, it marked another stage of the project. There will be many programs throughout the year to further enhance the experience gained and skills learnt in the camp so that ESTP members will be smarter and become future leaders of our school.

我知道教官那麼嚴格地教導我們是因為他們對我們很有期望，到了畢業的時候我真的不捨得離開這個地方，我們和教官說再見的那一刻，是我不會忘記的事。參加完這五日四夜的訓練營之後，我覺得自己信心強了，敢於面對困難和挑戰，不會選擇逃避，我期待有一天，我真的可以參加紀律部隊，作為我的職業。

2C 鄭宗天

青春港澳行2016

京港澳學生交流夏令營

在二零一六年七月廿三至廿九日，兩名中五學生（梁愷怡、沙的）參加了上述的交流營。是次活動目的是為三地學生提供交流機會，通過不同參訪加深學生對三地歷史和文化的瞭解。而這一次夏令營中最深刻的一幕是開幕營晚會的才藝表演，三地學生一起載歌載舞「小蘋果」舞曲，在有限時間排練而得此成果實屬可貴，各來賓十分讚賞他們精彩的演出，既達到交流營的目的，又加深彼此對中國歷史和文化的認識，同學們都帶著無盡歡愉和甜蜜情懷賦歸。一周旅程圓滿結束，而留下一幕幕難忘的印記。

在這次的交流團，我認識了來自不同地區的同學，大家在這一星期的夏令營相處得很開心，互相分享彼此的生活點滴。在這段時間大家都成了朋友，雖然短短一星期，但在離別那天，大家都依依不捨，甚至流下傷心的眼淚。直到現在我們仍會不時聯絡分享大家的生活趣事，而來自香港地區學生仍會偶爾相聚，暢談近況，互勵互勉。

6B 梁愷怡

I would like to share my happy and unforgettable moments of the exchange camp which I joined last summer.

Firstly, let me tell you about the assistance I received during the camp. On the first day, I told my group mates to help me find which dishes contained pork, as pork is forbidden in my religion. After that, all my group mates, especially Stella Cheng and Anson Chan, helped me a lot with that, without being reminded about it. I never expected that much love and care from my group mates before.

Secondly, I would like to share about our stay in Macau. The 2 days of stay in Macau helped me a lot to have a closer look at the history and culture of Macau. During the stay we visited one of the famous markets which was packed with tourists. After buying some souvenirs, we went to the Science Museum. We were almost there when I realized that I had left my camera back there in the market near the public toilets. With the help of Mr. Leung, after one and a half hours we found the camera near the public toilets in perfect condition. There were lots of people in the area but the camera was still there. It was unbelievable for me.

Finally I would like to share with you my group dancing performance on a Chinese song, which was impossible for me as I didn't have any experience in dancing before. With the help of my friends, I tried my best to learn the dance steps within a short period of time as I did not want to create trouble for my group mates during the dance performance. The night before the closing ceremony in which we were scheduled to perform, my roommate Anson helped me to master those steps, as I was finding it hard to remember all the steps properly. On that night I slept on a chair as I was so tired but with the help of my friends I overcame all the difficulties that I had faced during the dancing practice. It was indeed an amazing experience for me.

6C Saddiq Muhammad

Engine Restarted for HKACC 601 Squadron

After the re-structuring of normal meetings of HKACC 601 Squadron two years ago, the team has developed in a number of ways.

Firstly, 8 new members have joined the team. Many of them have joined not only because of their quest for aviation knowledge but were impressed by the team spirit and the discipline of the group. As a result, team members are now more willing to join additional activities besides the normal meeting time, including inter-squadron footdrill training as well as aviation parties. Besides, more leadership training elements have also been incorporated into the routine training and the new group has already taken up the role of flag raising as well as providing service during the closing ceremony on the sports day.

With greater enthusiasm of the new members, it is hoped that our squadron can grow bigger and stronger. Furthermore, it is also hoped that more activities can be arranged, including flying experience, arm drill training and other aviation related activities for our members on a more frequent basis so that our students can have a varied and diverse exposure.

Being Air cadet is fun. Learning things about aviation and air cadet footdrill is interesting. Although it is tiring, it is worth it because we learn a lot.

2E Aldred

2016 Honing Skills in Hospitality Programme Graduation Ceremony

Partnership Programme with Hong Kong and Shanghai Hotels Limited

Graduation Ceremony of 2016 Honing Skills in Hospitality Programme was completed successfully on 12 September 2016 at The Peninsula Hong Kong.

Gurung Akash from 6A and Francisco Danica Denise Soriano from 6C joined this programme this year. During the induction and foundation modules, students were introduced to the Hong Kong & Shanghai Hotels Limited's operations including The Peninsula Hotel, The Hong Kong Club, The Hong Kong Banker Club, The Butterfield's, The Repulse Bay Complex and the Peak Complex, core values, corporate responsibility and service standards of the operations. They also had a hotel tour, received hospitality service training and deepened their knowledge of food and beverages as well as front office and rooms operations.

Apart from empowering our students, the programme helped build the pipeline for future workforce. The programme also facilitated cross cultural understanding, contributing to the long term process of racial inclusion in Hong Kong, and creating shared values for business and society.

To mark the end of the programme, the students thanked their mentors in the graduation ceremony. They also had a dance performance and shared a lovely video to show what they had learnt. Our former Principal Mr. Li, Principal Mrs. Yeung, Assistant Principal Ms. Poon, teachers and parents were cordially invited by Akash and Denise to attend the graduation ceremony.

2017 Honing Skills in Hospitality Programme will start soon. This programme will continue to grow in impact and influence to nurture students in our school.

All about Us Filming Project

Ten students from S.5 and S.6 participated in the “All about Us Filming Project,” a creative film-making project for ethnic minorities youths organised under Hong Kong Arts Centre's flagship programme since 2009. This filming project includes an Orientation Night, a 3-day-2-night Creative Training Camp, a 2-month film production and a 3-day-2-night Intensive Production Camp. Through the fun challenges during the two exciting camps and weeks of filming activities, participants learnt from hands-on film making experience. The videos produced by the participants will be screened for the public in February, 2017. The public screening helps to promote creative talents of ethnic minority students as well as their understanding of the cultures of Hong Kong.

The Filming Project “All about Us” is a great opportunity for me and my other schoolmates. We realized how hard it is to be behind the camera. Also, I got much confidence in front of the camera after the training in the camps. Now, I have my own YouTube channel. “All about Us” is the best programme for young film makers.

6C Syed Ali Imam

It was very much fun in the camp. I really enjoyed it. In the camp, I improved my acting and editing skills. Students who love acting or making videos should join this filming programme.

6C Singh Sukhdeep

Slogan Writing and Reading Competition

This year, the Moral and National Education Committee organized a “Slogan Writing and Reading Competition”. Our young writers were welcome to write in different languages such as French, Hindi, Putonghua, Spanish and Urdu. Many students demonstrated their multilingual ability and expressed their thoughts on the theme on “Honesty” or “Respect”. The winners are as follows:

Slogan	Champion	1st Runner-up
French	Estrada Camille 3E	Gabriel-Evangelica 3E
Hindi	Ghising Soniya 3C	Gill Loveleen Kaur 1A
Putonghua	Wong Tsang Man 1C	Ng Ming Chak 3D
Spanish	Aranaga Garcia Sabrina Hortencia 2A	Cheng He Dickson Sky 2C
Urdu	Rana Aqsa 5B	Ifit Kousar 5E

The winners of the slogan writing competition were overjoyed to see their slogans put up on display board at the Covered Playground on ‘P.6 Information Day and Fun Fair’. A slogan reading game was held by the Moral and National Education ambassadors. First of all, the participants needed to throw a dice and got a number. Then, they had to read a note card in the particular language according to the number that the dice shown. It might be a great challenge for twisting their tongues!

Powered By Youth Forum 2016 and Act!on for A Cause Pitching Competition

On 12 and 19 November 2016, 8 S2 students were invited to join the ‘Powered by Youth Forum (PBY) 2016’ together with over 100 students from both local and international schools at the Australian International School, Kowloon Tong. PBY is the only youth event in Hong Kong that adopts local community-led model of sustainable development with a global perspective. The forum not only enabled the integration of students from different backgrounds across Hong Kong, but also introduced several main themes which might be overlooked in the traditional school curriculum. Adopting a peer-to-peer training model, PBY aims at engaging youths in real life social issues, encouraging creative problem-solving in social issues and providing learning opportunities for like-minded youths across the community. At the forum, the participants learned from inspiring keynote speakers and worked with professional facilitators in the break-out planning sessions. The ‘Power Group’ focused on personal strengths while the ‘Passion Group’ targeted at social issues. The issues included environmental

protection, urban revitalization and social equality. The groups then utilized their new found power and passion to implement their own Community Action Projects. The participants were offered an opportunity to present their ideas and projects to a panel of judges. The winning teams were offered a starting fund of HK\$5,000 and support by a professional mentor to bring their ideas to the community.

There were more than 12 teams from both local and international schools joining the ‘Act!on for a Cause’ Pitching Competition pitching their ideas to the judges. During the pitching session, participants were given a limited amount of time to sell their concepts and convince the judges of their originality, practicality and potential impact. The ideas of proposed projects spanned a wide range of issues from environment to social equality. The project ideas were sparked from the combination of their talents and interests. The team from our school was one of the winning teams of the competition. Their project title was ‘Change the World’, which aims at raising awareness of recycling and upcycling of useful materials in school. A starting fund of HK\$5,000 was given to put their project into action and a Kids4Kids mentor would assist them to realize their ideas into action.

The following students were one of the winning teams of the above competition in Nov 2016.

Chan Pui Yi Frances Ysabel	2D
Dhaliwal Jasimran Kaur	2D
Gurung Nishma	2D
Blundell Katherine Felix	2E

Google CS (Computer Science) First

The Google CS First project has reached another phase this year. Every Monday in November and December, 2016, students from the Chinese International School visited our school to work with our junior form students for Google CS First project. An iconic programming language, “Scratch”, was introduced and students could make use of this user-friendly medium for the understanding of basic computer programming and develop their problem solving skills. The project was well structured and has been implemented all over the world. An alternative platform to the regular curriculum which allows students to express their creativity was provided. The Google CS First project will continue in the 2nd term to further enhance students’ skill in computer programming and design.

I think that kids4kids has not only been a learning process but also an experience to meet and engage with new people. I got to learn new things every session and enjoyed it a lot.

2D Gurung Nishma

I really like joining “Act!on for a Cause” because I have learnt a lot of new things, for example, farming on the rooftops of buildings in the cities, and other stuff that we cannot experience with a regular curriculum. It was such fun to meet new people and they were all really nice!

2D Dhaliwal Jasimran Kaur

I joined Kid4Kids Google CS First project because I wanted to expand my knowledge in computer coding. By joining Kids4Kids “Act!on for a Cause”, I learnt how to make simple games, animation and I also met new people. Not only did I learn computer coding but I also experienced how to cooperate with my teammates. I had more bonding with my friends and other people.

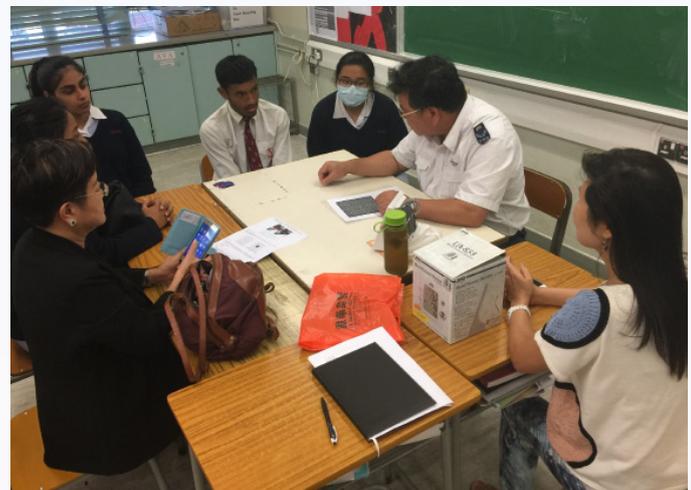

2E Blundell Katherine Felix

Rotary Adopt A School Programme

Broadening students' horizons, developing their potential and integrating them into society have always been the main concerns of our school. Since last year, through the Rotary Adopt A School Programme, new opportunities have been provided to our students with the newly set up Rotary Interact Club.

Rotary Interact Club is a self-supporting and self-governing organization for students, with guidance from a local Rotary Club. The members of Rotary Club are mostly professionals from all walks of life in society. Rotary Interact club also gives our students a chance to make a real difference while having fun. It planned and implemented a service project this school year to help the community and promote international understanding. This project not only enhances the whole person development of students, but also helps our students learn a lot of things, which may be complementary to the traditional school curriculum, such as connecting with community leaders, developing leadership skills, making international connections and discovering more opportunities to connect with Rotary, including Rotaract, RYLA, Interact District Conference and Youth Exchange.

On 26 and 27 November 2016, committee members of the Interact Club volunteered for the Elderly Care Information Fun Fair. They planned and organized one booth for body check of the elderly. They also prepared some souvenirs for them after their body check. Participants felt very happy and enjoyed the event. In this event, members of Interact Club not only had a chance to serve the community, but also acquired knowledge regarding body check-up as well.

I think the Rotary Interact Club is really fun because we get to do a lot of stuff, for example, we organized one booth at Kowloon Park helping the elderly with an eye check-up and blood pressure measurement in November. This club is very educational and we can learn a lot from it!

5A Catherine

I feel honored to be the Vice-president of the Rotary Interact Club. I have learnt a lot from serving in the club. It helps me increase my leadership and communication skills. I think as a Vice-president, I have learned many new things, and with the help of my fellow teammates, we have done a great job and I am sure I can do an even better job next year!.

5A Edwin Coro Jr.

I didn't expect to be selected as the President of the Rotary Interact Club. It has been such a great honour and the experience has really broadened my horizons. For example, I shared my experiences and activities organized by Rotary Clubs at the hall assembly. I led my interact members to plan and organize one booth for body check of the elderly on the Elderly Care Information Fun Fair. The eye check-up and blood pressure measurement for the elderly made us realize the need for taking care of the needy in society. Members do really appreciate these opportunities. Being the President of the Rotary Interact Club, I have greatly improved my leadership and communication skills.

5A Rizwan

Students' Achievements

Champion of HKSSF Interschool Football Competition - EK Football Team

Our Boys' A Grade Football Team had the best gift for Christmas in December by winning the championship in HKSSF Inter-school Football Competition (Division 3 – Kowloon Three)! Remaining unbeaten for 6 matches, our boys played the tense final match against HHCKLA Buddhist Ching Kok Secondary School on 7 December 2016.

The atmosphere was unbelievably tense with the roaring support from teachers and students from both schools, and the match was heated to a 1-1 draw at full time, which left the victory to be decided by the cruel penalty-shootout. Our goalkeeper, Michael of 5B, showed what he is capable of by saving two penalty kicks. Seeing the penalty kick from Tristan of 5B went in, teachers and students couldn't stop running onto the pitch to celebrate the well deserved victory. Congratulations to the boys!
