

# Message from the Principal

It has been a very tough and challenging year which we have never come across previously. School was suspended due to social unrest in the first term and COVID-19 pandemic in the second term. I think the two issues have great impact on all of us. Hard times create strong men. I believe that our students have become more mature after confronting the challenges and shown more love and care towards their families and beloved ones.

The road that lies ahead won't be easy. There will be obstacles and missed exits and roadblocks. Let's believe in them and support them to reach their goals and fulfill their dreams. Our alumnus Dr. Ricky Tso, guest of honour of our Annual Speech Day last year, mentioned that Sir EK was a factory of 'dream achievers'. The people from the big family of Sir EK all contributed to it by making our students as global dream achievers. I look forward to hearing stories from our students, years later, on how he/she embarks on his/her journey for the rest of the world as 'global dream achievers'. With dedication and persistency, he/she will be able to step out of his/her comfort zone and make his/her dream come true!

To celebrate our 20<sup>th</sup> Anniversary SEK Millennium Campus this year (2020-2021), we will have events including the opening of History Gallery and publication of SEK first School Magazine. To enhance the bonding between various stakeholders, Open Day and Homecoming Day would also take place.

I would like to take this opportunity to express my heartfelt thanks to the chairperson, Ms Stefania Gabriel, as well as the executive members of the PTA, the Alumni Association, all the parents, teachers and students for their unfailing support to the school.

May I also wish you all good health and a prosperous year ahead!

Mrs YEUNG KWONG Mong-ha  
Principal  
Sir Ellis Kadoorie Secondary School (WK)
